## Introduce yourself...

Posted by senthil - 2006/09/16 04:54

---

Hi all,  
As StanMed.net is intended to be a community website, where we establish an online forum where Stanleyans interact with each other, I thought it would be nice to introduce ourselves to each other.

Please post a bit about your name (if you want to), your relationship to Stanley, what you do now, and your hobbies.

I hope this will get us closer to our goal of establishing an online community to bring together Stanley students, staff, faculty and alumni from all over the world, in various professions, with various hobbies and interests.

Click the "Post Reply" button at the bottom of this page to post a reply. Of course, you need to be registered to do that.

Let the Stanley Spirit Soar! Cheers!

### Privacy note:

Please do not post phone numbers or addresses. Please do not post any information that you would not wish to share with strangers, as this is a public website accessible to everyone.

If someone wants to contact you, they can do so easily by clicking the private message button ("PM" button) below your post. Of course, you need to be registered to send or receive private messages, or to even see the PM button. This provides a secure way to contact, without revealing your phone, home address, or even your real email address. Cheers!

## Here I go...

Okay, I'll go first.

My name is Senthil. Some of you would better recognise me as "hypo". I belong to the MBBS class of 1994 to 2000. I currently do my PhD in Medical Informatics at the University of Utah in Salt Lake City, Utah, USA.

I like long walks on the beach. Just kidding :D :D

I like applying computers to improve patient care, which is exactly what I'm doing now. I like to travel, take photographs during my travel, play football (not the American kind), ski during the winter, and fish sometimes. I also make excellent coffee (espresso, cappuccino, mocha, you name it), and pick good red wine.

I like to ogle at sports cars, and I am also the founder of this website :)

Tell us a bit about yourself.

Will anyone join me & make my dream come true?

I was aocialising person even in college & also was very much interested in Social activities too which I'm trying to continue within my limits.
